

**CLAIMS**

I claim:

1. A lid for a vase comprising:  
a plate having a top and a bottom extending about a  
5 longitudinal axis;  
an opening extending between said top and said bottom at said  
longitudinal axis;  
a plurality of movable flaps positioned on said top over said  
opening, said flaps being movable between a closed position in which said  
10 flaps are immediately adjacent one another to an open position in which said  
flaps are positioned in said opening to allow an object to be positioned in said  
opening; and  
a skirt extending from said bottom about said longitudinal axis.
- 15 2. The lid of claim 1 wherein said plate has an upper support  
portion on said top surrounding said opening.
3. The lid of claim 1 wherein said plate has a lower support portion  
on said bottom surrounding said opening.  
20
4. The lid of claim 1 wherein each of said flaps includes an integral  
support member.
5. The lid of claim 1 wherein said lid further comprises a liner  
25 having a rim and an internal void, said bottom of said plate being positioned  
on said rim and said skirt being positioned in said internal void.
6. The lid of claim 1 wherein said plate has a generally circular  
configuration.
- 30 7. The lid of claim 1 wherein said plate has a generally rectangular  
configuration.

8. The lid of claim 1 wherein said lid is comprised of plastic.
9. The lid of claim 5 wherein said lid is comprised of plastic.
